Local Perth Install & Service

Choosing Your Door in 5 Easy Steps

Locally owned and Perth based, we supply, install and service sectional and roller garage doors across Perth. Work through these five steps, or give us a call and we'll help you choose.

1	Sectional or Roller? Sectional doors lift up and sit flat against the ceiling. Roller doors roll into a compact barrel above the opening.	See Sectional (p.3–4) Roller (p.8–9)
2	Pick a Panel Profile From slim Fineline and smooth Flatline to classic Heritage and Ranch.	See Panel Profile Options (p.4)
3	Colorbond® or Timber-Look? A standard Colorbond® colour, a Matte finish, or a timber look from the Colorbond® Timber Selection, DecoWood® or UniCote® LUX ranges.	See Colours & Finishes (p.5–6)
4	Add Windows? Let light in with window inserts on Stanford, Heritage or Ranch profiles.	See Window Options (p.7)
5	Choose Your Motor The standard opener comes included. Upgrade for app control, safety beams or an auto-lock.	See Motor & Opener Options (p.10–11)

How it works

from, plus GST

Includes a standard Colorbond® door, motor with 2 hand remotes and 1 wall remote, installation, and removal of your old door. Final price confirmed once we measure.

Good to know

Old Door Removal

Removal and disposal of your old door is included.

2–Year Door Warranty

Every door we supply and install is covered.

Lead Time: 4–6 Weeks

Typical time from order to installation.

Deposit to Order

A deposit is required before we order your door.

Built for Style and Strength

A sectional door lifts straight up and tucks flat under the ceiling, so you keep your whole driveway and garage. Here's what makes ours worth it.

Lifts Up, Not Out

The panels run up on side tracks and sit flat against the ceiling. Nothing swings out over the driveway, so you can park right up to the door and still use the full width of the opening.

Australian Steel, Made for WA Weather

Made in Australia from BlueScope® steel, with a heavy-duty aluminium bottom rail and PVC weather seal that keep dust, wind and rain out. Near the coast? Our Coastal Upgrade adds stainless steel cables and powder-coated tracks. N2 and N3 wind-rated doors are also available.

FingerProof™ Safety as Standard

Steel-Line's award-winning FingerProof™ panel design comes standard on every sectional door. The joints between panels are shaped so fingers can't get caught as the door closes, which matters in a house with kids.

Your Style, Your Way

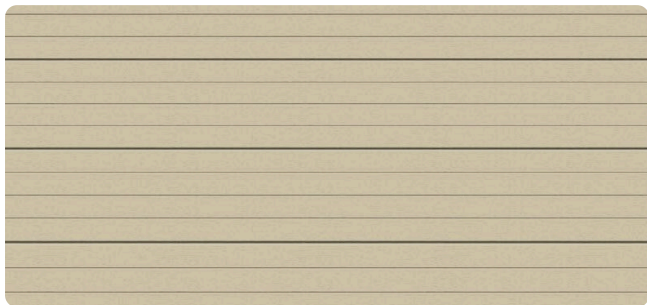

Pick from six panel profiles and the full Colorbond® range, or go for Matte, timber-look and custom finishes. Stanford, Heritage and Ranch profiles can also take window inserts to let light in.

Motorised and Ready to Go

Our sectional doors come with a Jaytech I200 V4+ opener included, along with 2 hand remotes and 1 wall remote. Want app control, safety beams or an auto-lock? Upgrade to the Superlift SDO-5 Ultra.

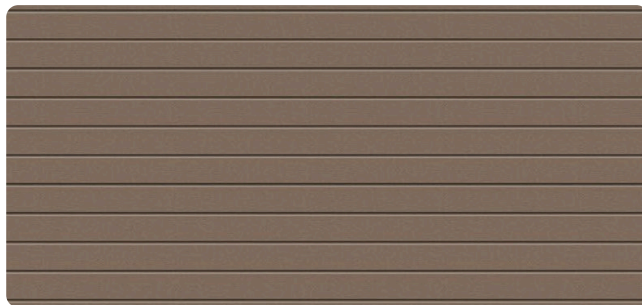

Sectional Garage Doors

Choose the panel style that best suits your home and façade.

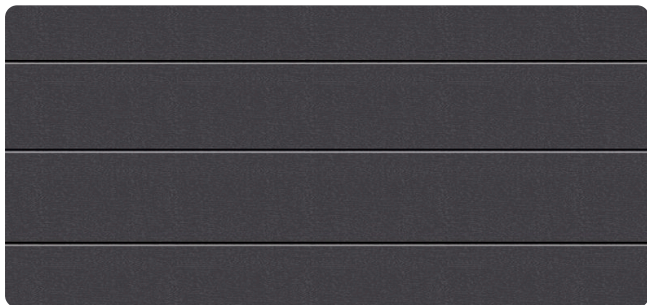

Fineline

Slatted look with fine grouped lines. Shown in Colorbond® Paperbark.

Ribline

Evenly spaced lines, smooth symmetry. Shown in Colorbond® Jasper.

Flatline

Wide flat panels, clean and minimal. Shown in Colorbond® Monument.

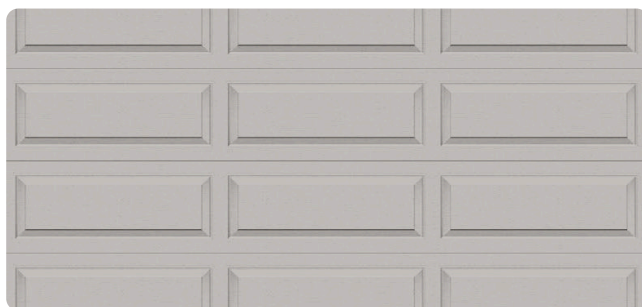

Stanford

Raised panels, takes windows. Shown in Colorbond® Windspray.

Heritage

Traditional carriage style, takes windows. Shown in Colorbond® Woodland Grey.

Ranch

Long raised panels, takes windows. Shown in Colorbond® Shale Grey.

Heritage & Ranch are Colorbond® only, in available door heights of 1960–2280mm (4 panels), 2450–2850mm (5 panels) and 2940–3420mm (6 panels). Not available in other heights (panels under 490mm). Flatline smooth finish at additional cost. UniCote® LUX suits Flatline, Ribline and Fineline only. Colours shown are examples.

Colours & Finishes

Colours shown are a guide only. We recommend comparing against an actual sample before ordering.

Standard Colorbond® Classic Range

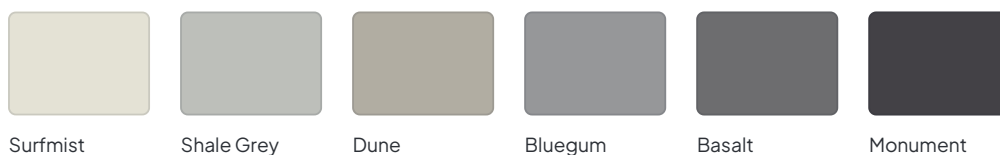

Included

Additional colours from \$440–\$1,700 + GST

Matte Range

Additional price, see Extras p.12

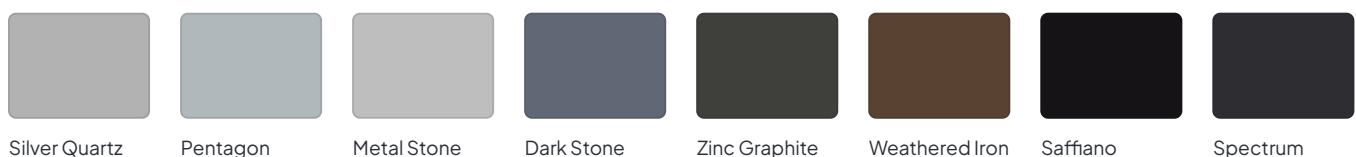

Colorbond® Secondary Colours

Additional price, see Extras p.12

UniCote® LUX, Architectural Series

Additional price, see Extras p.12

UniCote® LUX is only available on Flatline, Ribline and Fineline profiles. Timber-look finishes are on page 6.

Timber-Look Finishes

The warmth of timber with the strength and low upkeep of steel.

Additional colours from

\$440-\$1,700 + GST

Western Red Cedar

Jarrah

Merbau

Wenge

Colours shown are a guide only. We recommend comparing against an actual sample before ordering. Colorbond® Timber Selection colours are not available in a smooth finish and can't take window inserts. UniCote® LUX is only available on Flatline, Ribline and Fineline profiles; Ashwood has a smooth finish, the other Timbers of the World colours are slightly textured.

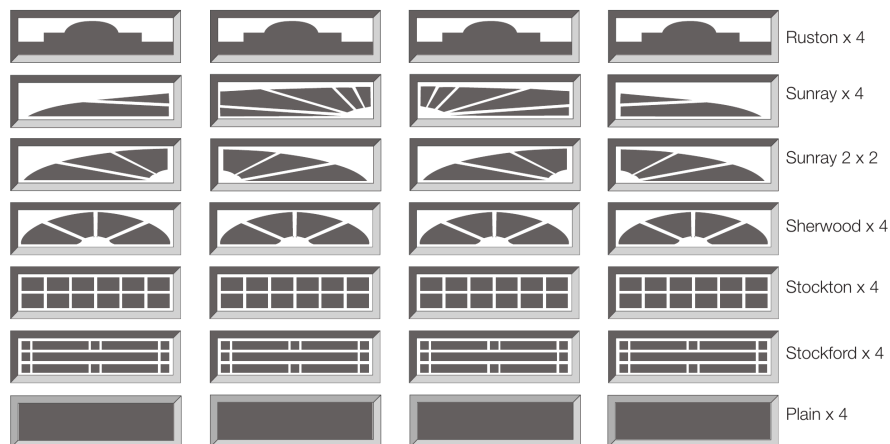

Window Options

Add natural light with window inserts on the Ranch, Stanford or Heritage profile. Prices are per window insert.

Ranch Profile

\$150 + GST

per insert

Stanford Profile

\$110 + GST

per insert

Heritage Profile

\$93 + GST

per insert

Windows can be fitted in standard Colorbond® colours only (not premium colours). Not suitable for cyclonic areas.

Roller Garage Doors

A roller door's steel curtain rolls up into a compact drum above the opening, leaving the ceiling free for storage, lighting or racks. Slats are roll-formed from Colorbond® steel and built for Perth's conditions. See the next page for a closer look at the construction.

Optional extras

Ventilated Profile, up to 9% airflow through the curtain

Tapered Bottom Panel, for sloping floors

Windlock Clip, extra hold in high-wind areas

AA Track Wind Proof Upgrade, \$350 + GST

from \$1,700 + GST

Ashwood Brazilian Walnut African Blackwood Weathered Iron

Colours shown are a guide only. We recommend comparing against an actual sample before ordering.

Built to Take a Beating

Perth sun, salt air and years of daily use will find the weak point in any garage door. Here's what's built into every Steel-Line roller door we install.

Australian Steel

Made from genuine BlueScope® Colorbond® and Zinalume® steel that stands the test of time.

Roll-Formed Curtain Profile

The curtain's roll-formed profile is engineered for strength while keeping a clean, modern look. Optional extras include a ventilated profile (up to 9% airflow) and a tapered bottom panel for floors that slope across the opening.

Centre Lock and Safe Exit

Every residential roller door has a factory-fitted centre lift lock, mounted at waist height and operated by key from outside. Inside, a keyless manual override gives you a safe way out in an emergency. A windlock clip is available for high-wind areas.

Quiet by Design

Nylon-fibre webbing on both sides of the curtain stops metal-on-metal contact, so the door runs quietly and smoothly for years.

Quality Drums and Springs

Precision-made drum wheels and heat-treated, tempered helical coil springs keep the door balanced and easy to operate.

Aluminium Bottom Rail

A heavy-duty extruded aluminium bottom rail strengthens the base of the curtain and holds a tough PVC weather seal that keeps out wind, rain and dust.

Sectional Door Motors

A standard motor and an upgraded, app-connected option. Both suit single or double sectional doors.

Jaytech 1200 V4+

1200N DC motor, all-metal drive gears. Includes 2x hand remotes + 1x wall remote.
